

FBIS-1450/85  
26 June 1985

MEMORANDUM FOR: Chief, Foreign Networks Division  
Office of Communications

FROM:

[REDACTED]  
Telecommunications Officer, FBIS

SUBJECT: Telecommunications Service Request

1. In our Telecommunications Service Request (TSR) dated 20 May 1985, (FBIS-1445/85, attached), we planned a path change for teletype circuit HFBA097 to MacDill AFB, Florida following a recommendation by DCAOC, Scott AFB, Illinois. In response to RRF/COMO 391894 DTG 281512Z May 85, DCA issued a format Telecommunications Service Order (TSO) D50331/B097-10 DTG 111835Z Jun 85.

2. After reviewing the proposed change, however, DECCO and DCA Headquarters have advised that new equipment will be required at MacDill AFB which may be costly for the consumer there. Since this equipment replacement more than offsets reduced leased line charges, the initial intent of saving USG money is no longer feasible and DCA has recommended that we cancel our TSR.

3. We have given verbal authorization to DCA cancelling the request for a path change and have agreed to have an amendment to the TSR sent through normal channels.

4. It is requested that your staff forward an amendment to DCA cancelling RRF/COMO 391894 DTG 281512Z May 85 in its entirety. The present path of teletype circuit B097 will remain as presently configured. /If there are any questions, please contact [REDACTED]
